

E3 Staff/Faculty Lounge

Dr. Margo Mountjoy, Regional Assistant Dean, Tami Everding, Regional Campus Manager

The E3 Staff/Faculty Lounge was created to bring staff/faculty out of individual offices and to provide them with a place to hold meetings, have lunch, network with their colleagues and faculty leadership.

This grant has provided coffee, tea, snacks for the lounge over the past year.

The Lounge has become the go to meeting place for staff/faculty, the staff/faculty are happy with the space as it provides an area that they can go to get away from their computers for a time. The area is equipped with soft seating as well as a meeting table. We have equipped it with a microwave, toaster, air fryer and coffee machines which allows the staff/faculty to prepare their lunches and a place to sit to eat, read a book or network with each other.

We will be fundraising to provide sustainability to the project and continue to fund snacks and drinks for our staff/faculty.
